Mrs Bellamy says ...

WOW!!! What an amazing start to the Autumn term. The children have really impressed us with their positive attitude towards the SSC class and ability to adapt to the new routines. Thankyou for supporting the children and school in these strange times.

We have lots of fun and engaging lessons planned for the children to support the curriculum. We have strategies in place to consolidate previous learning. The differentiated activites will ensure the children are supported in their learning and achieve their individual potential.

We have already been impressed with the work the children are producing and the commitment to their learning.
English and maths homework is set on Monday for the following Monday.
Many thanks for such a positive start, we have much to look forward to.

<u>Let us know what you think</u>: Is there an aspect of our topics that your child is particularly interested in? What would they really like to find out/explore/investigate? Are they already an expert/skilled in any of these areas? Do you have a skill/expertise we could use?
