

Maths weekly review

This week we have been working on our multiplication.

Year three weekly review

$$3 + 3 + 3 + 3 + 3 + 3 + 3 = 12 \times 4 =$$

Which of these questions gives the same answer? Circle your choice.

$$3 \times 6 = \quad 7 \times 3 = \quad 8 \times 3 =$$

$$53 \times 8 = \quad 105 \times 3 =$$

$$263 \times 4 =$$

48×3 gives the same answer as 18×8 . True or false? Can you show your calculations?

This week in **Maths** we've been learning

SHORT MULTIPLICATION
