

Can I round to the nearest 10/100 and 1000?

Challenge 1

Copy the question into your book and then write the answer. Remember to write 1 digit in each square.

Example:

Round to nearest 10

$$465 = 470$$

1) Round these numbers to the nearest 10.

37 21 185 3,522

2) Round these numbers to the nearest 100

107 462 2,985 19,463

3) Round these numbers to the nearest 1000

1,963 1,323 24,738 5,257,522

Can I round to the nearest 10/100 and 1000?
