

# Week 1

## What are forces?

### The big idea...

Complete the cold quiz to see what you may already know. Don't worry if you don't know yet... you will by the end of the topic.

Look through the slides of the PowerPoint that discusses the different forces. Are any of them acting on you now? Can you recreate any around the house?

We measure force in Newtons. What can you find out about the scientist Isaac Newton who was one of the first people to theorise gravity?

Complete the cold quiz.

Which forces from the PowerPoint can you discover in your home?

Can you produce a fact file about Isaac Newton?

Anti-gravity Malteser experiment.
