Remember: Understanding vocabulary goes hand in hand with understanding of grammar. Words can regularly act as a whole host of different word classes, depending on how they are used within a sentence.

These resources rely on the direct teaching of word etymology and meaning. As well as modelling how to use each word correctly.

Please be sure to read pages 11 and 12, Vocab Teaching Techniques, it will give a greater understanding of how to deliver new vocabulary to pupils. Just giving sheets or lists of words alone will only have limited impact. It is vital to allow time to teach, explain, discuss and play with the new vocabulary. Then, and only then, will pupils be able to use the vocabulary with meaning and intent.

TEACHING TECHNIQUES

As the **Ninja** has alluded to earlier, these vocabulary resources need to be supported by direct teaching. Teaching where misconceptions can be addressed and the correct meaning, spelling and varied forms of each word can be discussed, modelled and shared.

HELLO - A logical place to start with the word banks might be to identify which words the children already understand. If you are confident they can use a word with accuracy and control, then great! Let's investigate the rest.

VOCABULARY STRIPS - This section could be used in a variety of ways. Topic bookmarks, writing checklists, topic report writing aids; it's really up to you. Each list of words have been carefully selected to help pupils create and enhance understanding of each Literacy Shed resource.

NOUNS - This section provides nouns (words that identify people, groups, objects, places, emotions) associated with the resource. Great for reports or any type of writing linked to the film. Dive deeper and discuss the type of nouns: proper, common, collective and abstract. Remember to ask WHY. Can you discover more?

VERBS - This section provides verbs (being, doing and having type words) associated with the film. Believe it or not, verbs are also amazing for describing. Adjectives are great, but verbs rock! These words have been specifically selected to enhance pupils' description! Remember to discuss verb forms, past, present, perfect and link to subject verb agreements.

ADJECTIVES - These words will take your pupils' descriptive powers to a new level! You must teach them first, be selective and think carefully about what you are teaching and its context - discuss why pupils think these words might have been chosen. Pupils' subject knowledge will need to be secure to effectively use these words.

NOUNS, VERBS AND ADJECTIVES

These resources could be used in an unlimited amount of ways. One specific way you might choose to unlock a specific word is to use the **Vocabulary Laboratory** sheet on page 8. This activity is specifically designed to breakdown a pupil's understanding of a single word!

SYNONYM ALLEY - Synonym Alley has been created to help explore vocabulary synonyms (words that share the same meaning). Simply draw a line from the word on the left to the right. The ninja has also provided a blank template on page 14 for you to create your own.
