

ADDITION

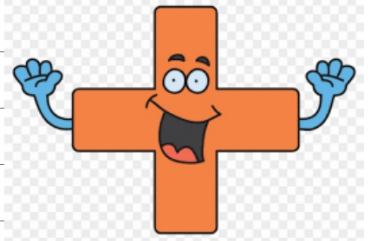

Can you think of any other ways of saying 'ADD'?

Today we will be revisiting the written method for addition...but do you remember what it is called?

ADDITION

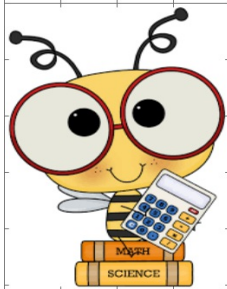

Using the numbers below can you make the largest possible answer using an addition sum?

8

4

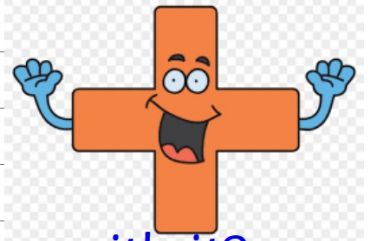

3

6

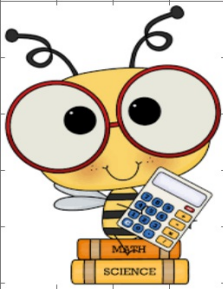

+

ADDITION

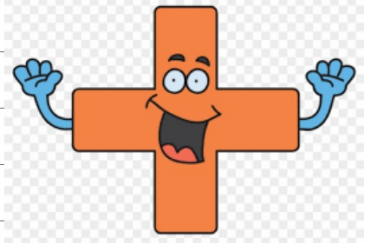

Read the statements below... do you agree with it?
Discuss your opinion with a partner and share your answers as a class. Don't look at the answer yet, we will come back to it at the end of the lesson.

If I add together two odd numbers then the answer will always be odd.

If I started adding from the hundreds column, I will ALWAYS get a different answer than if I started with the ones column.

ADDITION

Can you calculate the answer to the these questions using the correct method?

$23 + 6 =$

$134 + 19 =$

$42 + 5 =$

$258 + 37 =$

$57 + 8 =$

$365 + 72 =$

$63 + 9 =$

$493 + 86 =$
