- Moving Monsters

P.E. & PHSCE

- Developing hand eye co-ordination through use of equipment and activities.
- Developing Fitness, Circuit Training, Tennis, Rounders and Cricket.

Mrs Bellamy says ...

I have been so impressed with the children in the SSC Class this year. They have been working so hard and making excellent progress all round. It is a joy to teach them. They are making every effort to get on with each other and play so well with all the different age groups. I am so looking forward to this term. We are lucky enough to have the field to ourselves at lunch time and the children love playing football, ball games and playing in the wooded area. We are going on a trip to Buckingham Park in Shoreham on Thursday 8th July. These trips are always great fun. We will be organising games, playing in the play park and eating ice creams! Before and after that we have lots of work still to accomplish! Remember English and maths homework is set on Monday for the following Monday. Many thanks for all your support and keep in touch through the phone, email or Dojo.

Let us know what you think: Is there an aspect of our topics that your child is particularly interested in? What would they really like to find out/explore/investigate? Are they already an expert/skilled in any of these areas? Do you have a skill/expertise we could use?
