

# YEAR 5 - Knowledge Organiser ~ Art

## Still Life

- I know how to create a good composition in drawing.
- I understand proportions and can incorporate this into my sketch work.
- **I know** blend colours effectively
- within a composition, using oil pastels

## Printing

Building on skills they have learnt in Year 4, the children will print a rotated design, building up 4 colours with each translation.

Their designs will be inspired by nature and the work of William Morris, having closely studied some of his work, this is linked to Science and our habitats topic.

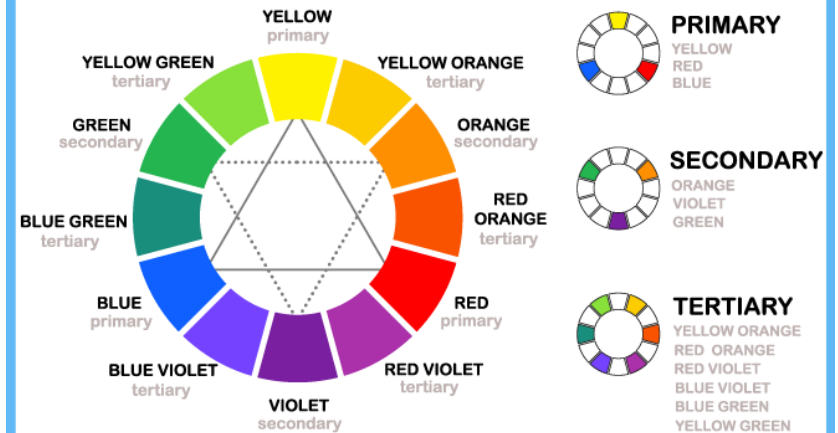

## Recycled Art

Consider how artists use recycled media to create sculptures and textiles.

The children will collaboratively produce a sculpture made from recycled materials.

## Color Wheel

## Simon Hart – Landscapes

Coastal art created from powder paints, inspired by both Simon Hart and our local coast lines.

- I understand how to mix colours, creating different tones and matching them to an artist's painting.
- I can create a finished landscape based on my own design but using the style and technique of Simon Hart
